

## **Job Description: Mid-Level Software Engineer (Laravel & Vue.js) - Full Remote with Relocation Opportunity to Portugal**

Are you an ambitious and skilled software engineer with expertise in Laravel and Vue.js development? Are you seeking a challenging role that offers the flexibility of working remotely and the exciting potential for relocation to Portugal in the future? If so, Heimdall IT has the perfect opportunity for you to join our dynamic team as a Mid-Level Software Engineer.

### **About Heimdall IT:**

Heimdall IT is an innovative tech company based in Portugal. Our talented team of software engineers and designers collaborate to deliver exceptional solutions, and we offer full remote work with the exciting possibility of relocation to Portugal in the future. Join us to be a part of our dynamic and forward-thinking environment, driving technological progress and shaping the future of software development. We take pride in fostering a collaborative and innovative work environment where talented professionals can thrive and make a real impact.

### **Responsibilities:**

As a Mid-Level Software Engineer, you will play a pivotal role in our development team, contributing to the design, implementation, and maintenance of our cutting-edge web applications. Your key responsibilities will include:

- Remote Development: Working as a full remote team member, collaborating with colleagues across different locations to deliver exceptional software solutions.
- Laravel & Vue.js Development: Leveraging your expertise in Laravel and Vue.js to create robust and scalable web applications, adhering to industry best practices and coding standards.
- Problem Solving: Tackling complex technical challenges with innovative and efficient solutions, ensuring high-quality deliverables.
- Code Reviews: Actively participating in code reviews, providing constructive feedback to peers, and promoting a culture of code quality.
- Issue Resolution: Identifying and resolving technical issues and bugs promptly to maintain application integrity.
- Process Improvement: Contributing to the continuous enhancement of our development processes and workflows.

### **Requirements:**

To excel in this role, you should meet the following qualifications:

1. Technical Skills:
  - Proficiency in Laravel framework and Vue.js for building top-notch web applications.
  - Strong understanding of front-end technologies, including HTML5, CSS3, and JavaScript.
  - Experience with RESTful APIs and integrating back-end services.
  - Knowledge of relational databases and SQL queries.
2. Experience:
  - Proven track record of 2 years as a software engineer, specializing in Laravel and Vue.js development.
  - Demonstrated experience in successfully delivering end-to-end web applications.
3. Problem-Solving and Analytical Abilities:
  - Exceptional problem-solving skills with a focus on practical and innovative solutions.
  - Aptitude for analyzing complex technical issues and proposing effective resolutions.
4. Collaboration and Communication:
  - Excellent teamwork and communication skills, both written and verbal.

- Ability to thrive in a collaborative, fast-paced remote environment.
5. Education:
- Bachelor's degree in Computer Science, Software Engineering, or a related field (or equivalent work experience).
6. Preferred:
- While not mandatory, the following qualifications will be advantageous:
- Experience with other JavaScript frameworks (React, Angular, etc.).
  - Familiarity with version control systems (e.g., Git).
  - Knowledge of Agile/Scrum development methodologies.

### **Benefits:**

At Heimdall IT, we offer a competitive salary and benefits package, alongside the opportunity for full remote work, giving you the flexibility to work from the comfort of your home. Moreover, we are excited to provide the possibility of relocation to our headquarters in Portugal, a country known for its rich history, vibrant culture, and thriving tech scene.

### **How to Apply:**

If you are an ambitious and talented software engineer looking for a fulfilling career with the flexibility of full remote work and the potential to relocate to Portugal, we encourage you to apply. Please submit your resume, cover letter, and any relevant portfolio or code samples showcasing your Laravel and Vue.js projects to [contato@heimdallit.pt](mailto:contato@heimdallit.pt)

We look forward to reviewing your application and getting to know you better.
